

Role — Owner (Super Admin)

Full company tools. Does not floor-clock. Confirms payroll.

Role — Owner (Super Admin)

Opens first: Console · **Main job:** People, payroll, finance, data tools

Owner night path

Accept close → confirm floor pay.

Stories

As Owner

I want Console home and full company tools

So that People, Payroll, Finance, and Data Center stay under one owner

- ☒ Opens Console first
- ☒ Can run Payroll, Finance, People, Data Center, and settings
- ☒ Does not use the floor clock or My Pay (uses Payroll instead)

As Owner

I want to accept night closes and confirm floor pay

So that same-night money closes without guessing

- ☒ Finance accept unlocks pending floor pay
- ☒ Confirm uses paid checkout + who clocked in
- ☒ Books follow paid sales — not typed overrides

As Owner

I want to hire staff and set assistant grants

So that each person only sees what they should

- ☒ People directory for roles and branches
- ☒ Assistant grants turn tools on or off
- ☒ Branch Admin cannot open People
