

Role — Assistant Super Admin

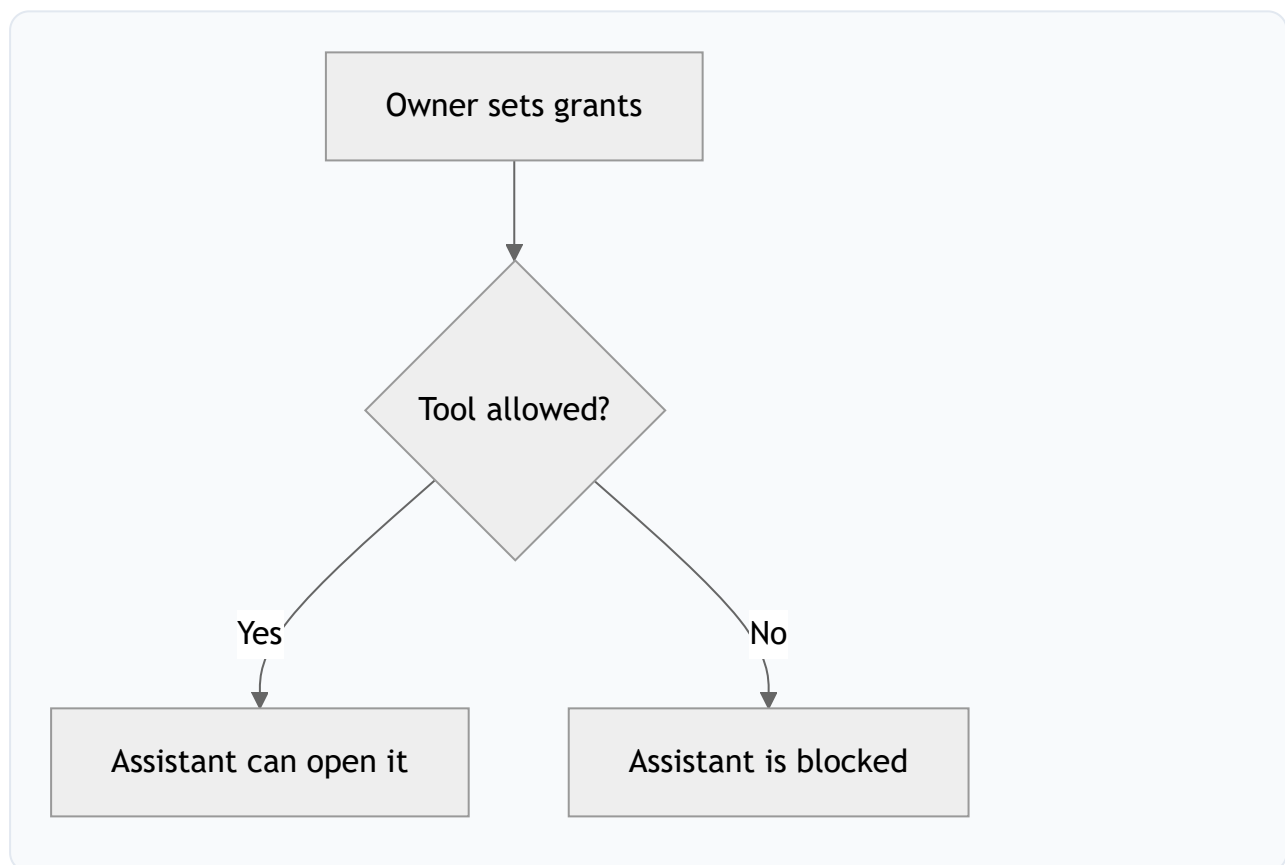

Console home. Tools limited by grants you set.

Role — Assistant Super Admin

Opens first: Console · **Main job:** Same tools as owner, limited by grants

Assistant grants

Owner turns tools on or off per assistant.

Stories

As Assistant Super Admin

I want Console home with grant-scoped tools

So that the owner can turn Finance write, CRM, or Content on or off

- ☒ Opens Console first
- ☒ Denied grants actually block those tools
- ☒ Can use My Pay (unlike Owner)

As Assistant Super Admin

I want to accept closes and help payroll when Finance is granted

So that owner can delegate night close without giving every tool

- ☒ Finance grant → can accept shift closes
- ☒ Payroll confirm only when finance write is allowed
- ☒ Expense reports lifecycle when granted

As Assistant Super Admin

I want to manage inquiries and people when those grants are on

So that partnership / contact / hire work stays controlled

- ☒ Inquiries inbox when granted
- ☒ People hire/edit when people grant is on
- ☒ No access when the grant is off
