

Role — Branch Admin

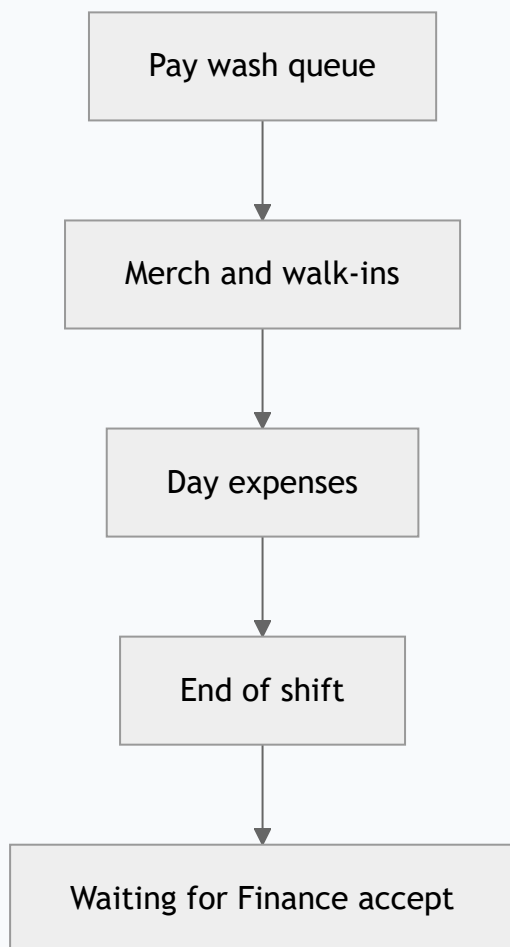

One bay's money day — checkout, close, attendance, planner.

Role — Branch Admin

Opens first: Checkout · **Main job:** POS, end of shift, attendance, planner

Branch Admin day

Checkout → expenses → end of shift.

Stories

As Branch Admin

I want only the bay tools I need

So that Command never links a page I cannot open

- ☒ Opens checkout first
- ☒ Allowed: floor, queue, attendance, POS, reviews, planner, Ops Lab, history, My Pay, audit
- ☒ Denied: finance, CRM, people, console, payroll register, inventory, bookings board

As Branch Admin

I want checkout → end of shift in one flow

So that paid sales are attested that night

- ☒ POS tabs: checkout, pending, expenses, dashboard
- ☒ End of shift when there was activity
- ☒ Override needs a reason when numbers differ

As Branch Admin

I want today's compensation estimate on Crew — without posting pay

So that I plan shifts while the owner confirms Payroll

- ☒ Estimate banner — not posted pay
- ☒ Crew screen does not invent wash-pool expenses as paid
- ☒ My Pay shows my own posted lines only
