

Role — Crew (staff)

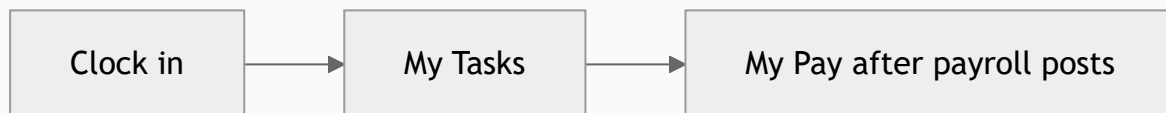

Clock in, do assigned tasks, see posted pay.

Role — Crew (staff)

Opens first: Attendance · **Main job:** Clock in, My Tasks, My Pay

Crew day

Clock → work → posted pay.

Stories

As crew

I want attendance as my home

So that clock-in is the first action of the day

- ☒ Opens Attendance
- ☒ Clock can require being near the shop when geofence is on
- ☒ Cannot open queue manager, checkout, or finance

As crew

I want assigned planner cards and posted payroll

So that I trust My Pay over any estimate on Crew

- ☒ My Tasks shows work assigned to me
- ☒ My Pay totals the latest posted run for me
- ☒ Owner uses Payroll instead of My Pay

As crew

I want late or absent to change my wash-pool share

So that pay matches who really covered the shift

- ☒ On time = full share
- ☒ About 1 hour late on an 8-hour shift $\approx 7/8$ share
- ☒ Absent = no share and cannot be assigned a car
- ☒ Detailers are not in the wash pool
