Team Lead wash path

Ticket → assign present crew → handoff to checkout.

Stories

As Team Lead

I want wash queue as my home dock

So that same-day wash moves cleanly

- ☒ Opens wash queue first
- ☒ Can create and move wash tickets
- ☒ Detailing stays on Bookings (Sales / Detailer)
- ☒ No POS / Finance / People

As Team Lead

I want to assign cars only to present or late crew

So that absent people never get a car or a wash share

- ☒ Present and late can be assigned
- ☒ Absent is off the assign list
- ☒ Late still earns a reduced pool share when they work

As Team Lead

I want quality marks and pay visibility without owning Payroll

So that Failed QA and My Pay stay honest

- ☒ Can mark Failed QA; Sales cannot
- ☒ KPI glance for bay volume (not Finance P&L)
- ☒ My Pay for own posted lines
