Hakum Auto Care
Sir Michi notes — changes & live routes

Report date: 19 October 2026

STRICT READINESS

Checklist sections B and C are wired in the frontend and backend for trained staff. This is **not** soft-launch closed: BusyBee / BrandTxt IP allowlist and Auth SMTP still need host proof, and a full staff role FLOPS / money-path click-through was not re-run this pass. Section E stays Sir-gated (friend discount number, per-branch point prices, owner daily SMS — policy: no).

Open any route link below. /operations/* needs the matching staff login. Public and /account routes work from the live site for customers.

1. Public & customer routes

6. Who can open what (short)

Owner / Super Admin (BossMich): full, including Floor Board. General Admin (Assistant Super Admin): no Floor Board. Team Lead / Branch Admin / Marketing / Customer Rep: planner without Cash Advance board. Branch Admin: queue + detailing read-only; POS / finance / HR / customers on. Marketing: all-branches, read-only queue/detailing/customers, no HR. Customer Rep (sales): all-branches, detailing read-only, CRM create/modify — not Finance reports. Investor: read-only queue, detailing, POS, vouchers, finance. Crew: crew dock (Attendance, Planner Forms+Tasks, My advances).

7. Still open / intentional limits (honest)

Topic	Status
Soft-launch ready	No — BusyBee IP + Auth SMTP + full FLOPS click still open
Sellable stock per size	Shipped — product_branch_stock.size_key; apply migration 20261019220000 on live
Cash Advance board hide	Shipped — plan_boards.visible_roles + Configure allowlist; migration 20261019221000
Staff birthday push/inbox	Shipped — inbox + web push on birthday cron; no SMS
Owner daily SMS	Out of scope (policy: no)
Friend discount / per-branch points	Sir-gated — Settings only; catalog-wide points
