

POS flowcharts (visual)

Open this file in any browser. Diagrams are rendered live from Mermaid. Source of truth for edits: 09-FLOWCHARTS.md.

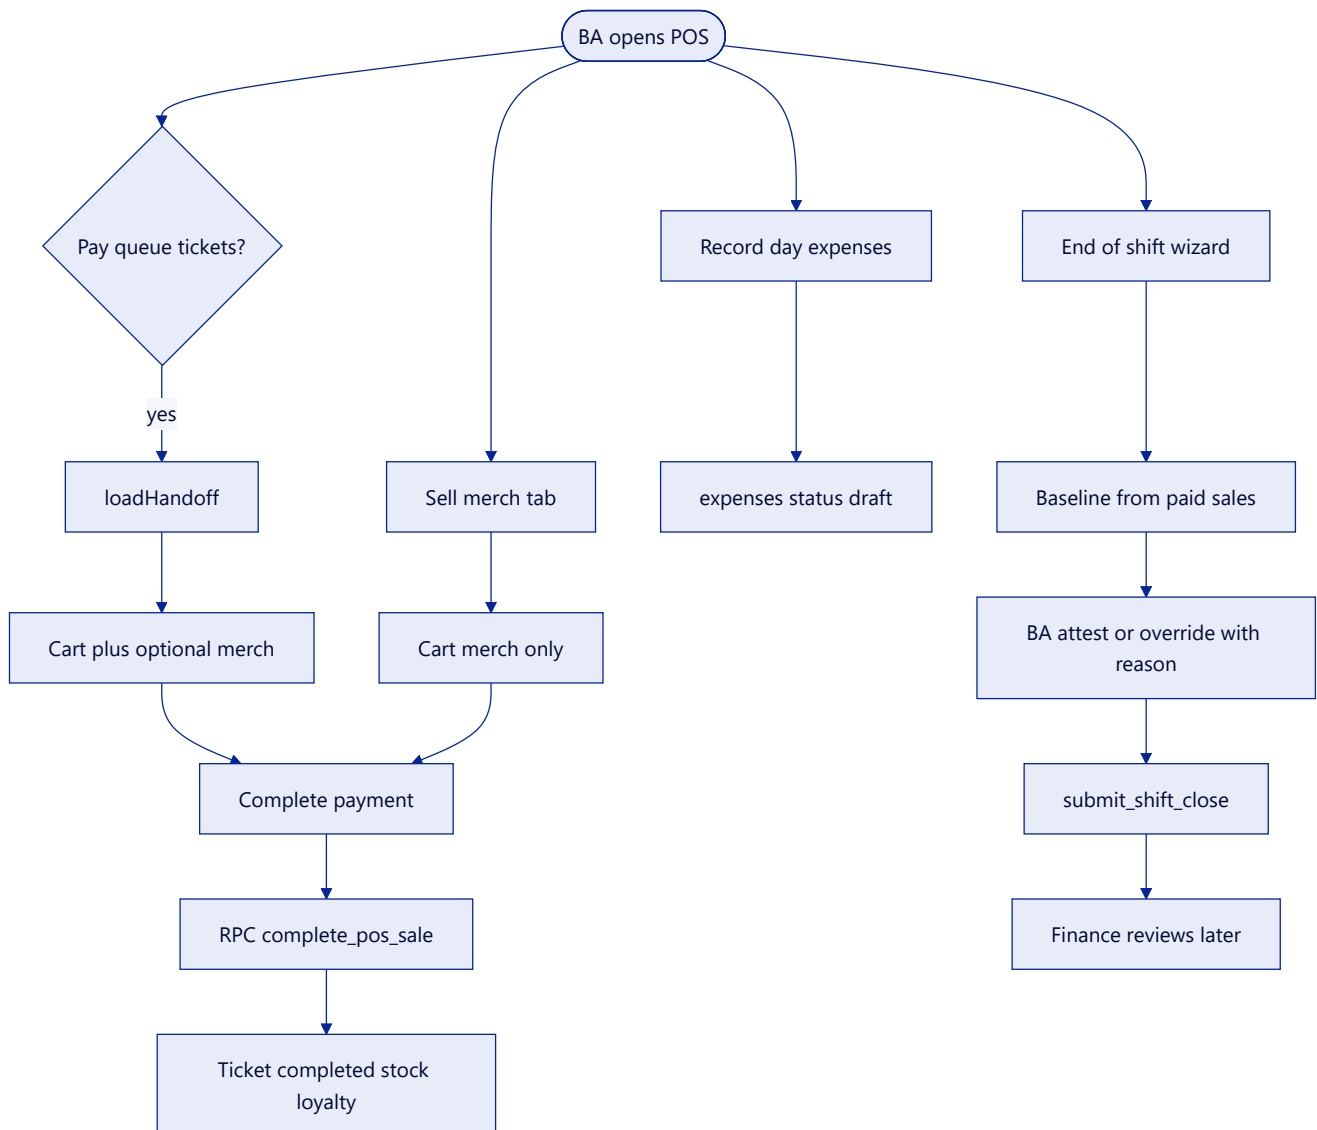

F1 — System context (POS in Hakum)

Floor, POS counter, Finance, and Payroll boundaries.

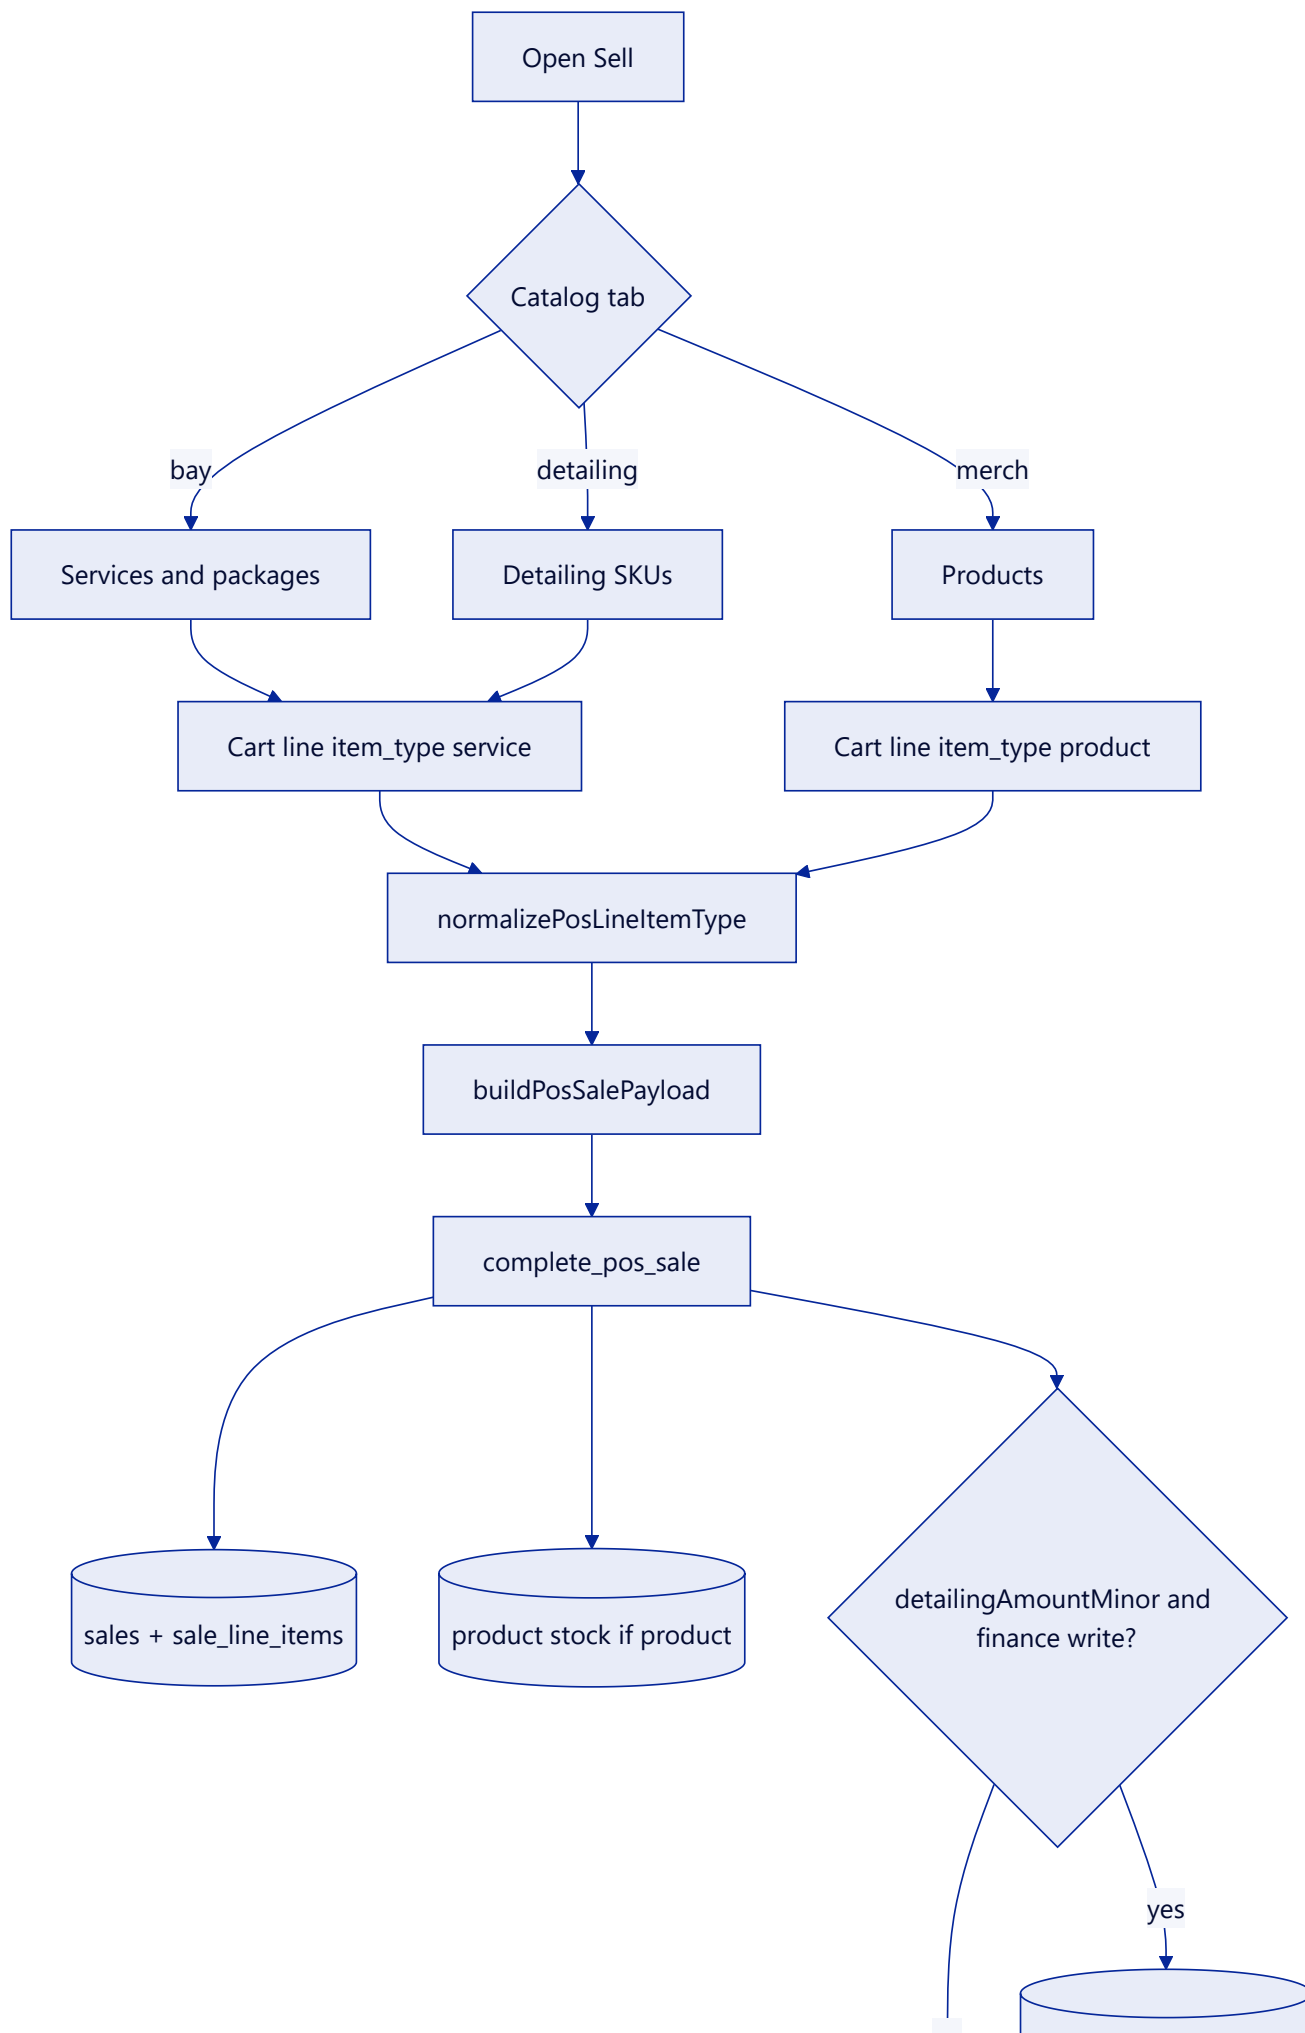

F2 — BA day loop (straightforward path)

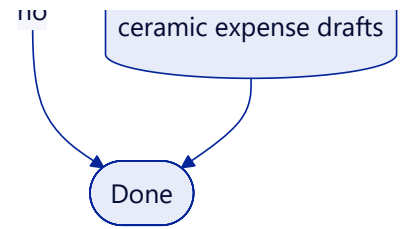

Merch, pay queue, expenses, and end of shift.

F3 — SA / ASA walk-in catalog checkout

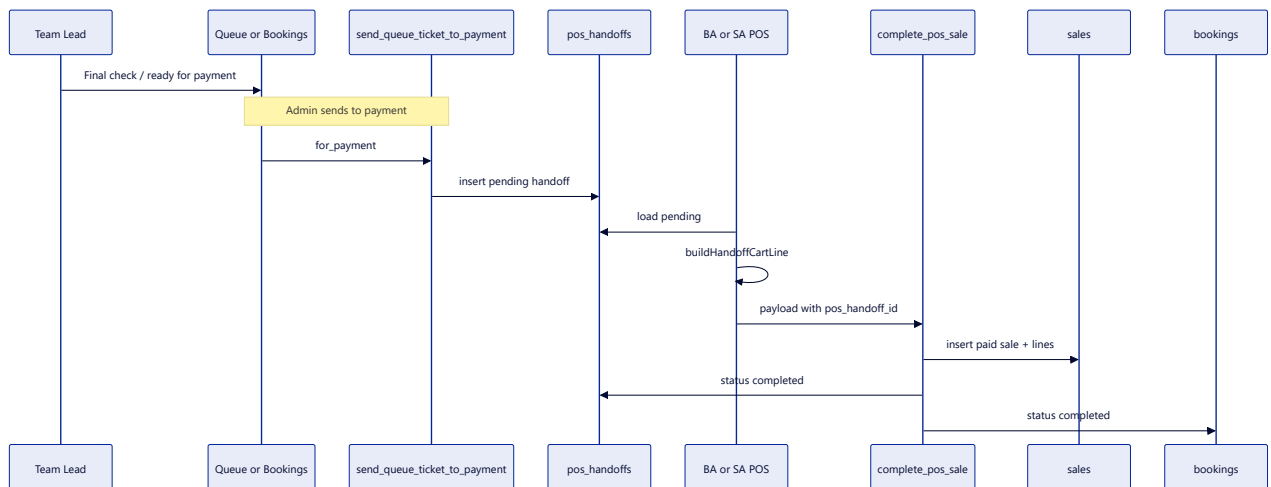

Bay, detailing, merch tabs through RPC.

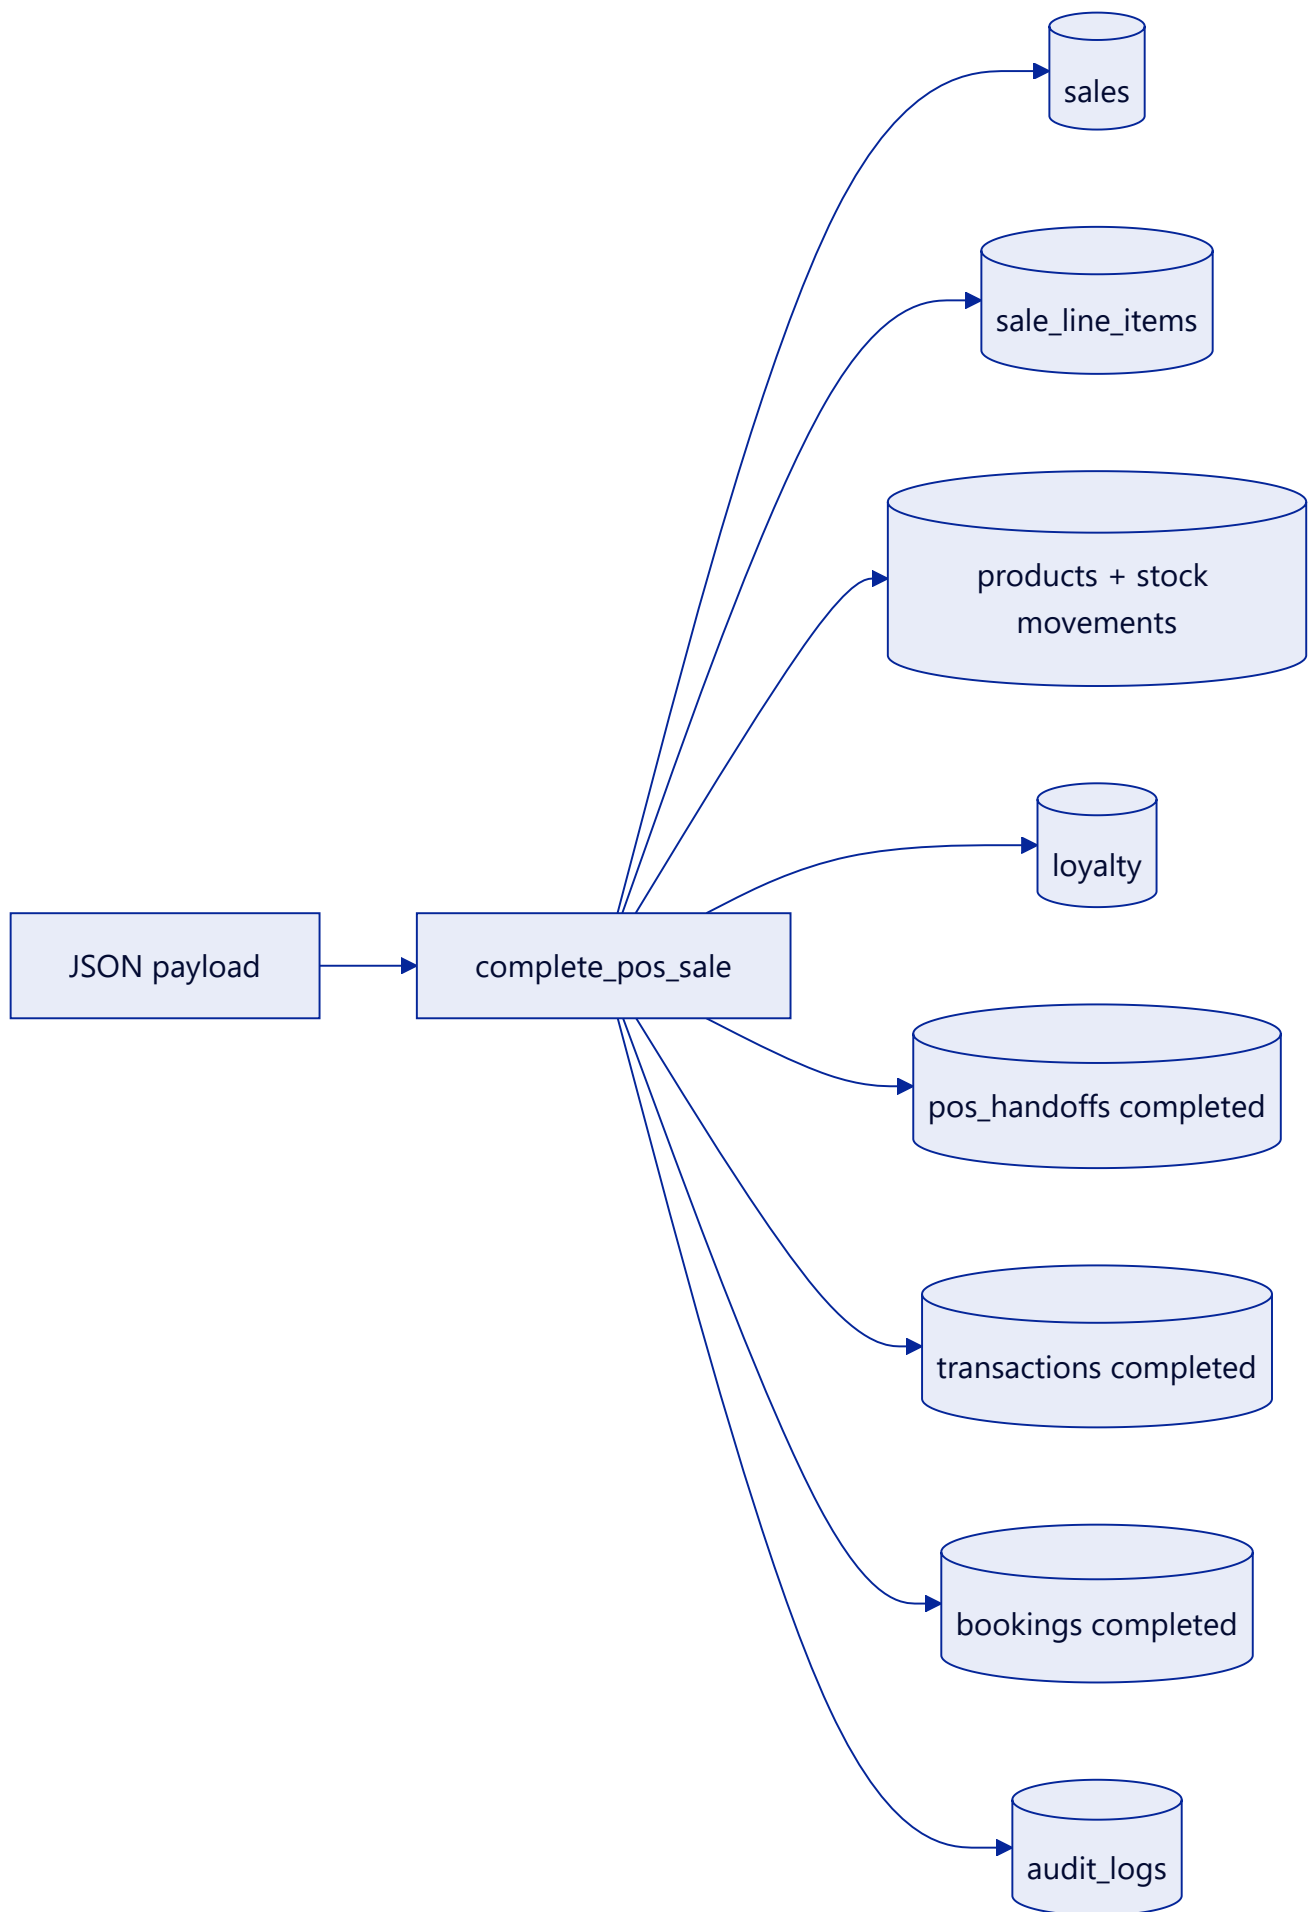

F4 — Queue / booking → Pay queue → paid

Sequence from Team Lead through handoff to sale.

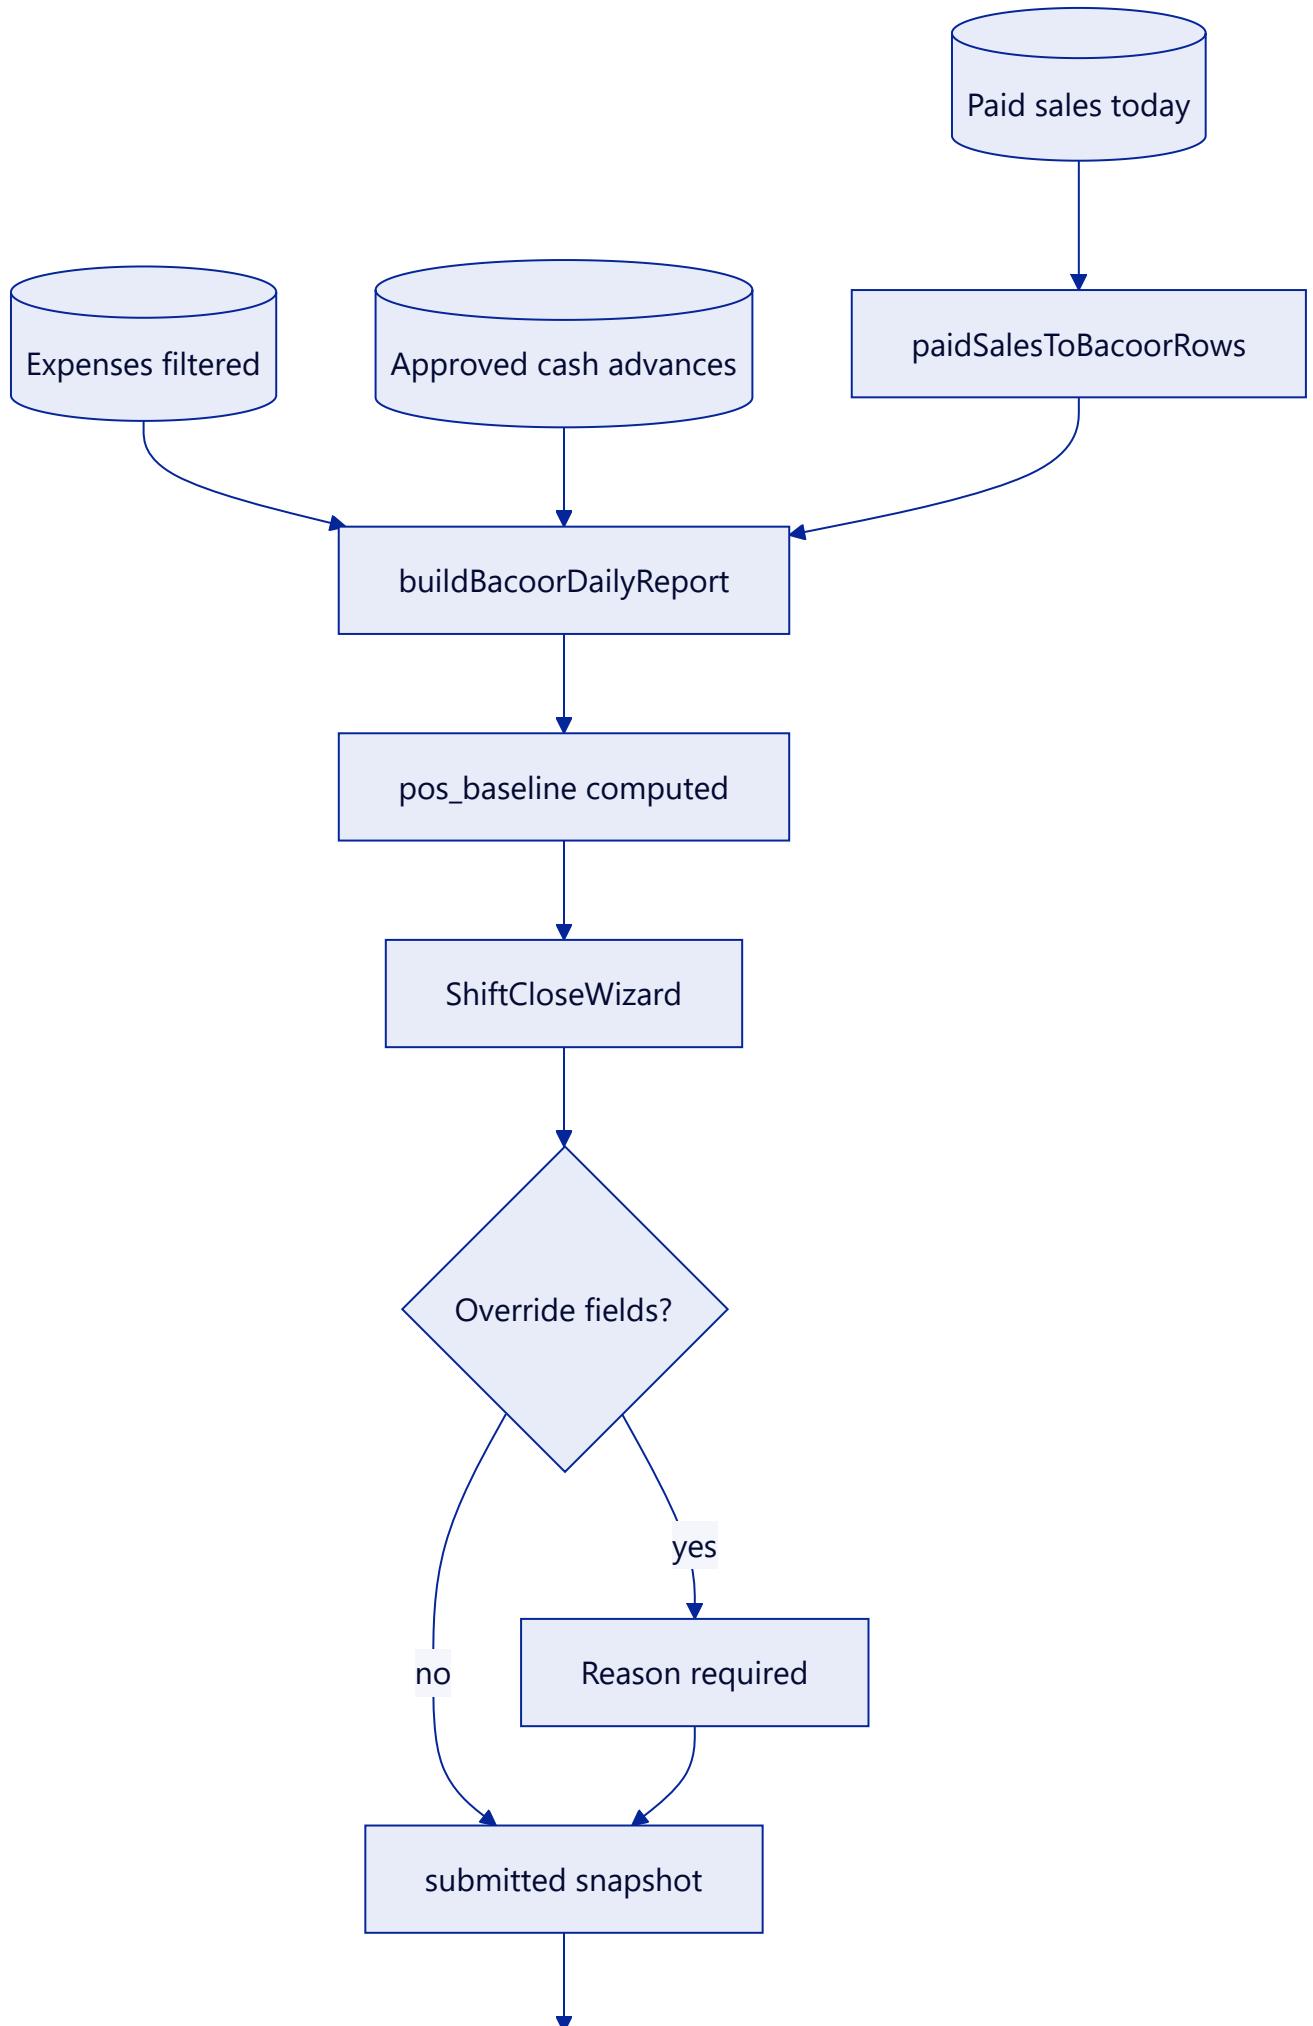

F5 — complete_pos_sale write set

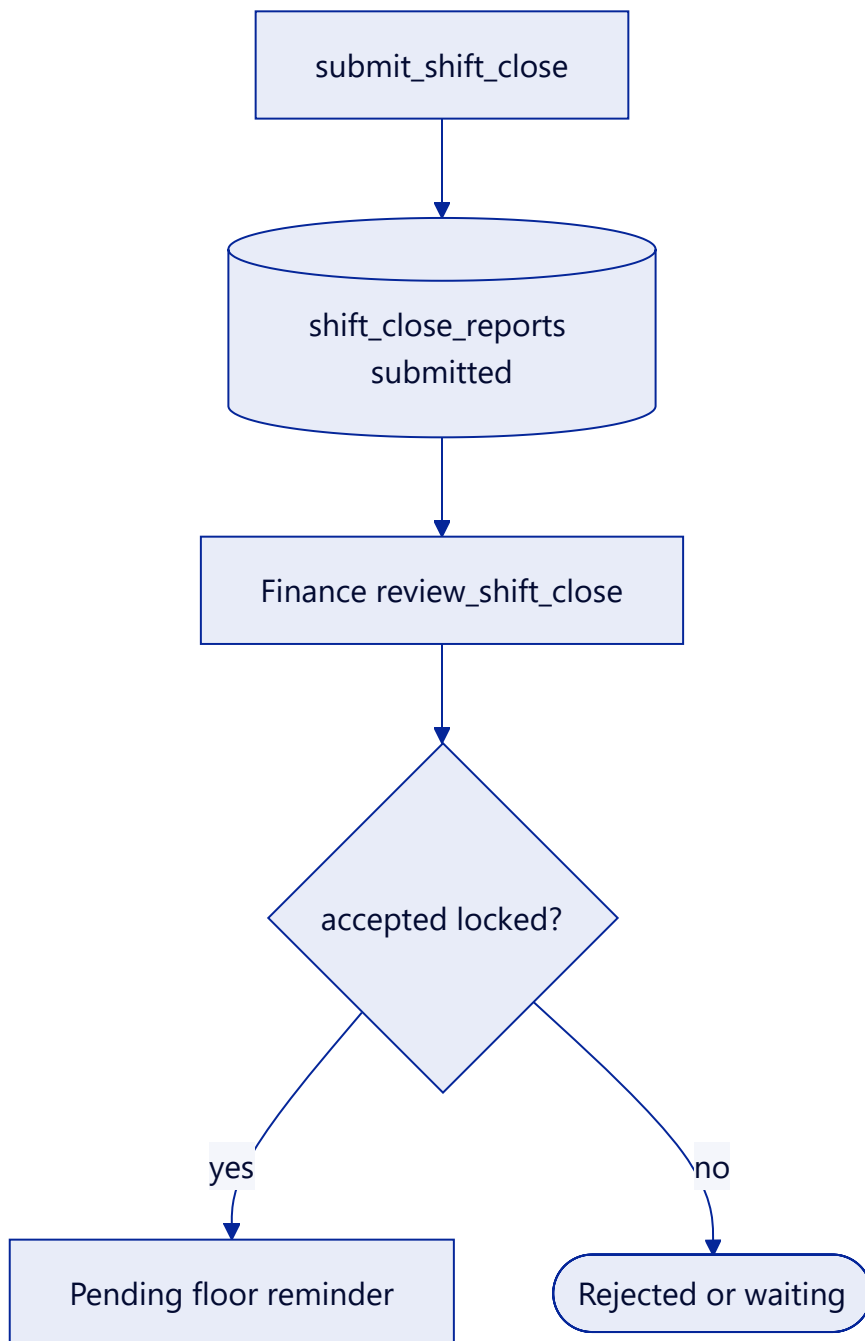

Tables touched by the checkout RPC.

F6 — End of shift data truth

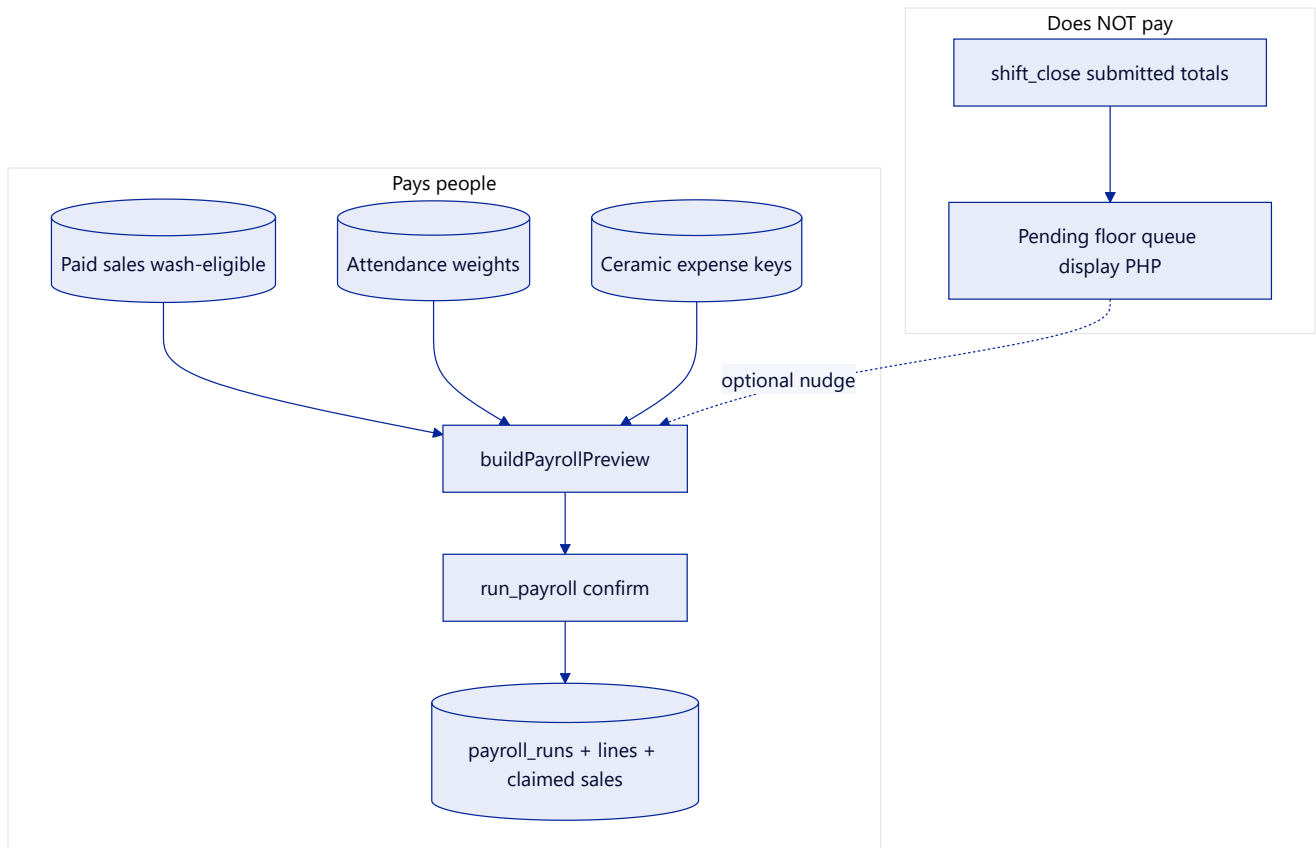

Baseline from paid sales vs BA attestation.

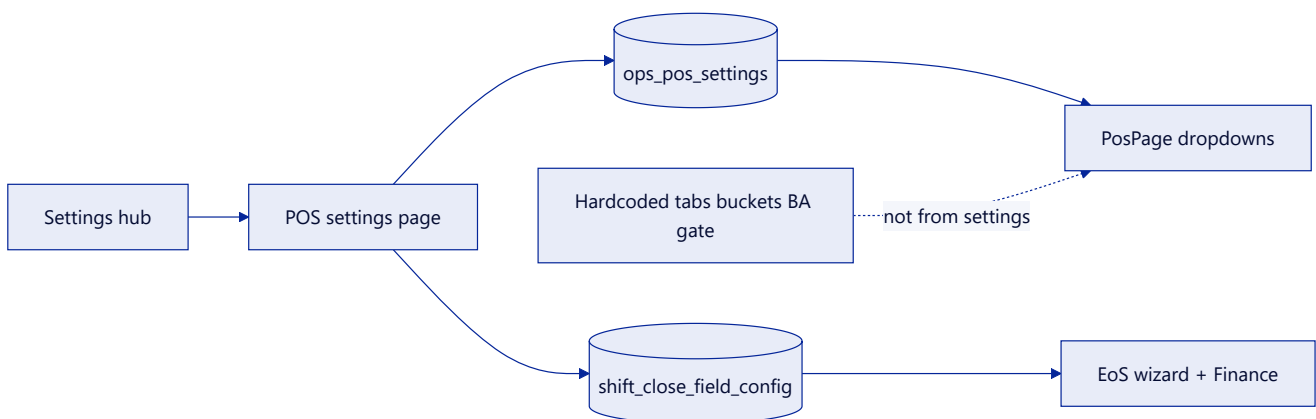

F7 — Payroll: what money path is real

Attestation does not pay; paid sales proof pays.

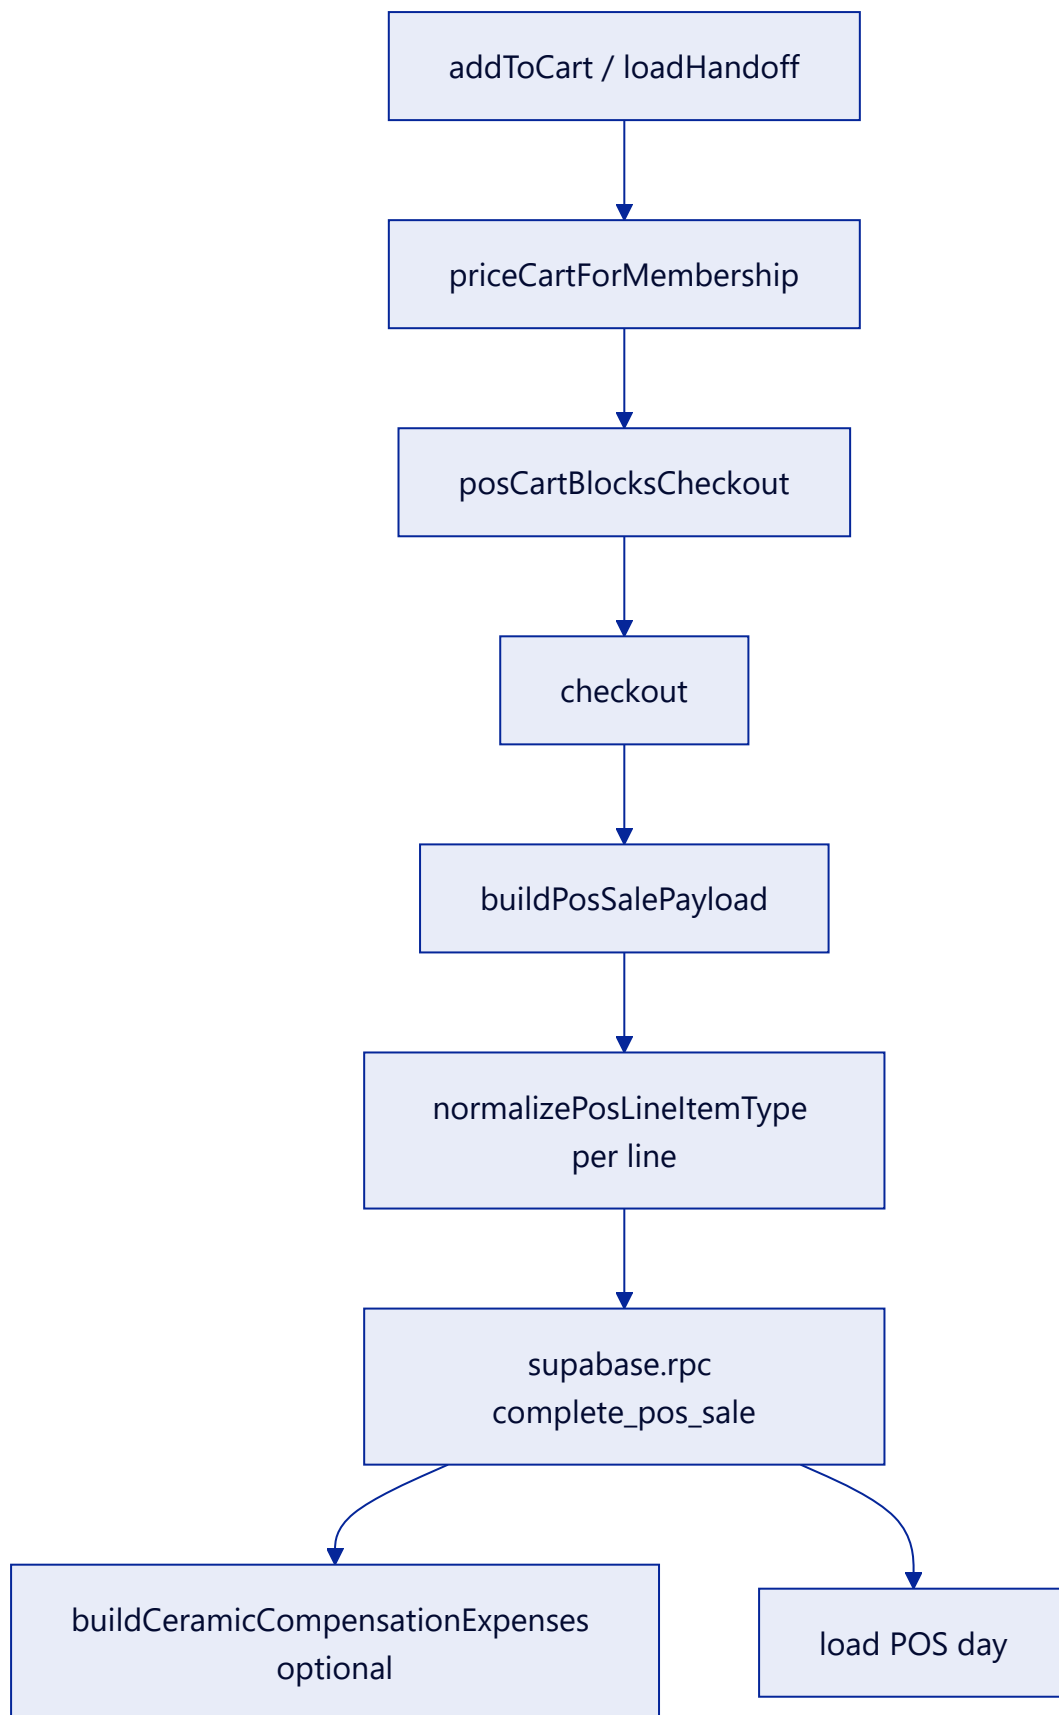

F8 — Settings vs runtime

What is configurable vs hardcoded in POS UI.

F9 — Function call map (checkout)

From addToCart through reload.

F10 — Function call map (End of shift)

From day data through submit_shift_close.
