

How the shop runs — user stories

Plain-language stories for the full day: clock-in, wash, detailing, checkout, Daily Sheet, Finance approve, every role, and every major page. No technical flowcharts.

October 05, 2026 · Asia/Manila 17 tabs · stories only Share this PDF with leadership

Start here

A short owner brief — how Hakum Ops handles money and who is responsible. No technical diagrams — only stories.

What this document is

Everything your team needs to understand the shop day, Daily Sheet money honesty, and who can open which tools — written for owners, not developers.

- **Shop day** — morning to night stories
- **Pay rules** — wash pool, late, absent, detailing, cash advances
- **Night close** — Daily Sheet submit → Finance approve → books
- **One tab per role** — Owner through Customer
- **All pages** — every major screen and what it is for

The one money rule

Paid checkout tickets are the only source of day sales. The Daily Sheet is the cash-drawer and crew-pay story — it does not invent income. Finance approves the sheet once; that posts expenses and salaries. Books follow paid sales.

Same-night loop (target)

1. Branch Admin fills and submits the Daily Sheet (POS → Daily sheet)
2. You or your assistant approve or return it in Finance → Daily sheets
3. Approve posts expenses and crew pay once; return sends the branch back to fix
4. Branch Admin releases cash pay after the approve push
5. Books / profit & loss follow paid sales — not typed fiction

Example pesos (one day, two branches)

Use this as a sanity check when reading reports.

WHAT HAPPENED	ABOUT ₱
Bacoor wash sales	2,000
Wash pool (35%)	700 split — on-time earns more than someone 1 hour late
Imus wash pool (crew only)	350
Coating 10,000 minus 500 shirt → 10% + 10%	950 to crew + 950 to assigned detailer
Approved cash advance 200 off a 700 wash share	That person nets 500

Carwash salary on the close report = **wash pool only**. Detailing shares are separate — they do not inflate the carwash salary line.

Each branch settles on its own sales. Bacoor wash never funds Imus pay.

How to read a story

Every card says **As** (who), **I want** (the job), **So that** (why it matters), and green checks for what “done” looks like on the floor.

Shop day

Stories for a normal bay day — clock in, wash queue, detailing, checkout, close.

Morning — who is here

Pay and car assignment only count people who really showed up.

As a crew member or Team Lead

I want to clock in at my branch (with location rules when turned on)

So that the wash pool only includes people who are actually here

- ☒ Clock can be blocked when attendance is turned off for that person
- ☒ Geofence can require being near the shop
- ☒ Owner account does not use the floor clock
- ☒ Present and late can be given a car; absent cannot

Wash queue (Team Lead)

Same-day carwash only. Detailing stays on the bookings board.

As Team Lead

I want to add and move wash tickets toward payment

So that customers flow from waiting to checkout without mixing multi-day detailing

- ☒ Team Lead can open the wash queue and create tickets
- ☒ Queue is wash-only; detailing stays with Sales / Detailer
- ☒ Handoff to checkout keeps the queue number and visit group
- ☒ Adding merch keeps the handoff; adding a walk-in service starts a new ticket

Detailing bookings (Sales)

As Sales

I want to run the detailing pipeline and assign a detailer

So that coating and other detailing jobs are tracked separately from same-day wash

- ☒ Pipeline statuses from assigned through completed
- ☒ Sales can work all branches with the right status permissions
- ☒ Paid detailing lands in the right sales bucket

Checkout (Branch Admin)

As Branch Admin

I want to take payment for queue tickets and walk-ins

So that paid checkout is the single truth for that day's revenue

- ☒ Cannot finish pay if a service line is missing its catalog link
- ☒ Payment methods: cash, GCash, card
- ☒ Detailing jobs create draft commission notes (not automatic posted pay)
- ☒ Approved cash advances show on close — not as a fake POS sales tab

Daily Sheet

As Branch Admin

I want to submit one Daily Sheet per branch per day

So that cash / GCash / card, expenses, and crew pay are attested against what POS sold

- ☒ Money-in comes from paid POS (wash + detailing + merch), never cash-advance repayments
- ☒ Suggested crew pay from attendance; overrides need a short reason
- ☒ Float and counted cash close the drawer story
- ☒ Only one sheet per branch per day

As Owner or assistant

I want to approve or return the Daily Sheet

So that approved sheets post expenses and salaries once

- ☒ Review happens in Finance → Daily sheets
- ☒ Approve / return notifies the Branch Admin by web push
- ☒ Profit & loss still follows paid sales, not typed fiction

Pay rules

How people get paid fairly — late, absent, detailing commission, cash advances, and books.

Crew pay (Daily Sheet)

Official pay posts when the Daily Sheet is approved — not from a separate Payroll wizard.

As Owner or assistant with finance rights

I want to approve the Daily Sheet so pay and expenses post once

So that crew lines and shop costs land in the books with the same day

- ☒ Suggestions use attendance and pay rules
- ☒ Branch Admin overrides need a reason
- ☒ Approve posts once; reopen voids if needed

As Branch Admin

I want to set crew pay on the Daily Sheet

So that I settle the bay without inventing income

- ☒ Money-in is locked to paid POS
- ☒ Cash advances release on the same sheet

As crew

I want to know pay is settled after sheet approval

So that I do not look for a separate My Pay page

- ☒ Estimate banners say pay is settled on the Daily Sheet
- ☒ Owner uses Finance → Daily sheets, not My Pay

Late, absent, cash advance, detailer

As Owner

I want late crew paid for the remaining shift

So that a 9:00 clock-in on an 8:00–16:00 shift earns about 7/8, not a flat penalty that ignores the clock

- ☒ On-time present = full share
- ☒ 60 minutes late on an 8-hour shift → 0.875 weight
- ☒ Late without a clock still falls back to a flat late weight
- ☒ Pesos split cleanly with no leftover centavos drifting

As Team Lead

I want absent crew off the board and off the pool

So that they get no wash share, no car, and no detailing commission

- ☒ Absent cannot be assigned a car
- ☒ Absent weight is zero
- ☒ Assigned but absent detailer holds commission until fixed

As Owner

I want approved cash advances settled on the Daily Sheet

So that advances never inflate sales and never auto-strip pay

- ☒ Only approved / accepted / paid advances deduct
- ☒ Pending drafts are ignored
- ☒ Suggestions do not auto-apply cash advances

As a detailer

I want commission on every job I am assigned

So that booking pipeline and walk-in checkout pay me the same way

- ☒ Assigned person is paid on booking and walk-in
- ☒ Commission stays on that job's branch
- ☒ Detailers are not in the wash pool

As Owner

I want each branch-day settled on its own sales

So that Bacoor wash never funds Imus coating books

- ☒ Wash pool keyed by branch and day
- ☒ One Daily Sheet per branch per day
- ☒ Approved sheet posts only that branch-day
- ☒ Books roll up per branch — not a merged fiction

Finance books

As Owner, assistant, or Investor

I want branch- and date-scoped books

So that net profit reflects paid sales and posted expenses

- ✓ Loads sales summary, profit & loss, and expenses
- ✓ No profile → no accidental all-branch data
- ✓ Load failure shows a clear retry message
- ✓ Reports live under Finance (old reports link redirects)

As Investor

I want Finance only

So that I see performance without floor or people tools

- ✓ Home opens Finance
- ✓ Navigation is Finance only
- ✓ Queue, checkout, and people are denied

Night close

How the night handoff works — Branch Admin submits the Daily Sheet; leadership approves; pay is released.

Branch Admin submits

As Branch Admin

I want to submit the Daily Sheet when the day is done

So that cash / GCash / card, expenses, and crew pay match what POS sold

- ☒ One sheet per branch per day
- ☒ Total sales = paid POS only
- ☒ Crew pay suggestions with reasons on overrides
- ☒ Submit notifies Owner / assistant by web push

Finance approves

As Owner or assistant

I want to approve or return the Daily Sheet

So that only trusted sheets post expenses and salaries

- ☒ Approve posts books once
- ☒ Return sends the branch back to fix and resubmit
- ☒ Books still follow paid sales

Release pay

As Branch Admin

I want to release cash pay after the sheet is approved

So that crew are paid from the same sheet Finance trusted

- ☒ Approve push says release pay
- ☒ No separate floor-payroll wizard
- ☒ Reopen (Owner) voids posted lines if a fix is needed

Owner

Super Admin — full company control.

OPENS FIRST

Console

MAIN PAGES

- Console
- People
- Finance (Daily sheets)
- Data Center
- Settings
- Audit
- Memberships
- KPI
- History

USUALLY DOES NOT

- Floor clock
- Legacy Payroll / My Pay pages (redirect away)

Stories

As Owner

I want Console home and full company tools

So that People, Finance, and Data Center stay under one owner

- ☒ Opens Console first
- ☒ Approves Daily Sheets in Finance
- ☒ Does not use the floor clock

As Owner

I want to hire and edit staff

So that roles, branches, and clock toggles match the floor

- ☒ Directory and edit form
- ☒ Temporary password support
- ☒ Assistant grants editor

As Owner

I want memberships, settings, and audit

So that loyalty, POS rules, and checkout actions stay controlled

- ☒ Memberships kill-switch
- ☒ POS and Daily Sheet rules under Settings
- ☒ Audit trail

Assistant

Assistant Super Admin — same tools, limited by grants you set.

OPENS FIRST

Console

MAIN PAGES

- Console
- Granted Finance / CRM / Content / People tools

USUALLY DOES NOT

- Tools you turned off in grants

Stories

As Assistant Super Admin

I want Console home with grant-scoped tools

So that the owner can turn Finance write, CRM, or Content on or off

- ☒ Opens Console first
- ☒ Denied grants actually block those tools

As Assistant Super Admin

I want to help approve or return Daily Sheets when granted

So that the owner is not the only person who can finish the night

- ☒ Finance write grant required for approve / return
- ☒ No grant → those actions stay blocked

Branch Admin

One bay's money day — checkout, Daily Sheet, attendance, planner.

OPENS FIRST

Checkout / POS

MAIN PAGES

- POS / Checkout
- Daily Sheet (inside POS)
- Queue
- Attendance
- Planner
- Ops Lab (view)
- History
- Audit
- Reviews

USUALLY DOES NOT

- Finance books
- CRM
- People
- Console
- Legacy Payroll / My Pay
- Inventory
- Bookings board

Stories

As Branch Admin

I want only the bay tools I need

So that Command never links a page I cannot open

- ☒ Opens checkout first
- ☒ Allowed: floor, queue, attendance, POS + Daily Sheet, reviews, planner, Ops Lab, history, audit
- ☒ Denied: finance, CRM, people, console, inventory, bookings board

As Branch Admin

I want to take payment for queue tickets and walk-ins

So that paid checkout is the single truth for that day's revenue

- ☒ Cash, GCash, card
- ☒ Catalog link required on service lines
- ☒ Cash advances show on the Daily Sheet, not as fake sales

As Branch Admin

I want to submit the Daily Sheet when the day is done

So that cash / GCash / card and crew pay are attested against what POS sold

- ☒ One sheet per branch per day
- ☒ Override reason when pay differs from suggestion

Team Lead

Bay leadership — wash queue, attendance honesty, KPI glance.

OPENS FIRST

Wash queue

MAIN PAGES

- Wash queue
- Attendance
- KPI (glance)
- My Tasks
- History
- Reviews

USUALLY DOES NOT

- POS checkout as primary
- Finance
- People
- Daily Sheet submit

Stories

As Team Lead

I want wash queue control without finance pay tools

So that same-day wash moves cleanly

- ☒ Opens wash queue first
- ☒ Can create tickets; detailing stays elsewhere
- ☒ Absent crew off the assign list
- ☒ Can mark Failed QA; Sales cannot
- ☒ No POS / Finance / People / Daily Sheet submit

As Team Lead

I want absent crew off the board and off the pool

So that they get no wash share, no car, and no detailing commission

- ☒ Absent cannot be assigned a car
- ☒ Absent weight is zero

Crew

Floor washers — clock in, do bay work; pay settles on the Daily Sheet.

OPENS FIRST

Attendance

MAIN PAGES

- Attendance
- My Tasks
- Notifications

USUALLY DOES NOT

- POS admin
- Finance
- People
- Daily Sheet submit

Stories

As crew

I want attendance as my home

So that clock-in is the first action of the day

- ☒ Opens Attendance
- ☒ My Tasks for assigned work
- ☒ Late or absent changes wash-pool share honestly

As crew

I want to know pay is settled after sheet approval

So that I do not look for a separate My Pay page

- ☒ Branch Admin releases cash after Finance approves

Ops Lead

Operations Lead — network help across branches without owning Daily Sheet approve.

OPENS FIRST

Ops Lab roadmap

MAIN PAGES

- Ops Lab
- Queue (network)
- POS help
- Attendance register (view)
- Planner

USUALLY DOES NOT

- Floor clock
- Finance Daily Sheet approve
- People
- Data Center

Stories

As Operations Lead

I want Ops Lab as home and network-wide floor help

So that I cover Team Lead and Branch Admin work across branches without owning money approve

- ☒ Opens Ops Lab roadmap
- ☒ Can use queue and POS across branches
- ☒ Can see the attendance register but cannot floor-clock
- ☒ No Finance approve / People / Data Center

Sales

Detailing pipeline across branches.

OPENS FIRST

Detailing bookings

MAIN PAGES

- Bookings
- Planner
- History
- Notifications

USUALLY DOES NOT

- Wash queue as home
- Daily Sheet approve
- People

Stories

As Sales

I want home on detailing bookings for all branches

So that I do not land on the wash queue

- ☒ Opens Bookings
- ☒ All-branch pipeline access

As Sales

I want to run the detailing pipeline and assign a detailer

So that coating and other detailing jobs are tracked separately from same-day wash

- ☒ Statuses from assigned through completed
- ☒ Paid detailing lands in the right sales bucket

Detailer

Assigned detailing jobs and commission.

OPENS FIRST

Detailing bookings

MAIN PAGES

- Bookings (assigned)
- Attendance
- My Tasks

USUALLY DOES NOT

- Wash pool share
- Finance
- People
- Daily Sheet submit

Stories

As a detailer

I want Bookings + Attendance + My Tasks

So that I work assigned jobs; commission settles on the Daily Sheet

- ☒ Opens Bookings
- ☒ Assigned jobs pay on booking and walk-in
- ☒ Not in the wash pool

As a detailer

I want commission on every job I am assigned

So that booking pipeline and walk-in checkout pay me the same way

- ☒ Commission stays on that job's branch

Marketing

Demand and customers — not Daily Sheet money.

OPENS FIRST

Customer list (CRM)

MAIN PAGES

- CRM
- Content
- Bookings (as allowed)
- Notifications
- History

USUALLY DOES NOT

- Daily Sheet approve
- Finance approve
- People admin

Stories

As Marketing

I want CRM, content, bookings, and alerts — not money approve

So that I run demand without touching pay

- ☒ Opens customer list
- ☒ Content and notifications when allowed

As Marketing or Owner

I want content and broadcast

So that public site blocks and blasts stay role-gated

- ☒ Content and broadcast under the right permissions

Video Editor

Shoot and edit work on the planner — no floor noise.

OPENS FIRST

Planner calendar

MAIN PAGES

- Planner calendar
- My Tasks

USUALLY DOES NOT

- Queue
- POS
- Finance
- CRM
- Bookings
- People

Stories

As a video editor

I want Planner calendar and My Tasks as my dock

So that shoot and edit work is scheduled without queue noise

☒ Opens Planner calendar first

☒ Dock: Calendar + Tasks

☒ Denied: queue, POS, Finance, CRM, Bookings, People

Investor

Read books only — performance without floor tools.

OPENS FIRST

Finance

MAIN PAGES

- Finance (sales, P&L, expenses)

USUALLY DOES NOT

- Queue
- Checkout
- People
- Daily Sheet approve
- Attendance clock

Stories

As Investor

I want Finance only

So that I see performance without floor or people tools

- ☒ Home opens Finance
- ☒ Navigation is Finance only
- ☒ Cannot approve Daily Sheets
- ☒ Queue, checkout, and people are denied

As Owner, assistant, or Investor

I want branch- and date-scoped books

So that net profit reflects paid sales and posted expenses

- ☒ Sales summary, profit & loss, and expenses
- ☒ Load failure shows a clear retry message

Customer

Public account and lobby guest — never staff tools.

OPENS FIRST

My account

MAIN PAGES

- Account home
- Garage / cars
- Past visits
- Queue status
- Public queue board (guest)

USUALLY DOES NOT

- Staff tools
- People
- Finance
- POS

Stories

As a customer

I want phone sign-in that keeps one account

So that visit history stays together

☒ Wizard: phone → name/plate → birthday → password

☒ Garage and past visits

As a guest in the lobby

I want public queue status by branch

So that I see progress without logging in

☒ Public queue board shows only safe info

As a customer

I want My account as home

So that I never open staff money or people tools

☒ Account tabs only

☒ Staff tools denied

All pages

Every major page — what it is for, in plain language.

Money & leadership pages

As Owner / Assistant / Investor

I want Finance

So that I can approve Daily Sheets, read books, and see money health

- ☒ Daily sheets inbox
- ☒ Sales / P&L / expenses
- ☒ Investor is Finance-only (no approve)

As Owner / Assistant

I want Finance → Daily sheets

So that I approve or return the night sheet so pay and expenses post once

- ☒ Approve posts books
- ☒ Return sends the branch back

As Team Lead / leadership

I want KPI glance

So that bay volume is visible without full Finance P&L

- ☒ KPI in Team Lead more menu

As Sales, Marketing, Team Lead, or Branch Admin

I want visit History

So that I can look up past visits without opening the full CRM

- ☒ History on the right docks

As Branch Admin or Owner

I want Audit

So that checkout actions are reviewable

☒ Audit on Branch Admin allow list

Floor pages

As Branch Admin

I want POS / Checkout

So that paid tickets are the day's sales truth

☒ Queue handoff + walk-ins

☒ Cash / GCash / card

As Team Lead

I want Wash queue

So that same-day wash moves to checkout

☒ Wash-only; detailing stays on Bookings

As Sales / Detailer

I want Bookings

So that detailing jobs are assigned and completed

☒ Pipeline statuses

☒ Assignee for commission

As Branch Admin

I want Daily Sheet (inside POS)

So that the night sheet can be approved in Finance

☒ Attest cash vs POS

☒ Crew pay + expenses on one sheet

People & time

As Owner or assistant with people rights

I want People

So that roles and branches match who can work

☒ Directory, edit, temp password

☒ Assistant grants

As crew / Team Lead / Branch Admin

I want Attendance

So that clock-in drives fair wash shares

☒ Present / late / absent rules

☒ Ops Lead can view register but not floor-clock

As Branch Admin, Sales, Ops Lead, Video Editor

I want Planner & My Tasks

So that non-wash work is tracked with proof

☒ Assign → proof → accept or send back

Customers, stock, content, system

As Owner, assistant, or Marketing

I want CRM

So that floor and sales share the same customers

☒ Notes, history, retention filters

As Owner or Team Lead

I want Inventory / catalog

So that bay services and detailing catalogs stay separate

☒ Services & packages · Detailing · Merch

As Owner

I want Memberships

So that stamps and tiers stay kill-switchable

☒ Branch Admin denied by default

As Sales, Marketing, or Owner / assistant

I want Notifications / inquiries / reviews

So that messages and public forms land in one hub

☒ Route gated

☒ Failed QA is Team Lead / Owner — not Sales

As Operations Lead / Owner

I want Ops Lab, Console, Data Center

So that ops coordination and imports stay in the right hands

☒ Ops Lab for Ops Lead

☒ Data Center owner-only

As Owner or assistant

I want Settings

So that POS and Daily Sheet rules stay thin and clear

☒ Separate modules under settings

As Marketing or Owner

I want Content

So that public site blocks and blasts stay role-gated

☒ Content and broadcast under the right permissions

As Branch Admin / Owner

I want Daily Sheet money path

So that pay settles on the sheet — legacy Payroll / My Pay routes redirect away

☒ POS → Daily sheet

☒ Finance → Daily sheets
